

DATAISTIC

All you need to know in a single page

What is Dataistic?

A company providing services of compliance with EU General Data Protection Regulation (GDPR) and global data privacy laws.

What does 'dataistic' mean?

Data-centric. Our services are focused on data and value brought thereby, not merely individuals.

What services does Dataistic provide?

- Service of external data protection officers;
- Consultations;
- Compliance audits;
- Training;
- Preparation of policies, procedures and other compliance documentation;
- Other GDPR and global data privacy compliance services.

Can GDPR and data privacy compliance be dataistic?

Yes. To cite GDPR, 'the processing of personal data should be designed to serve humankind. The right to the protection of personal data is not an absolute right'.

What added value does Dataistic bring?

It helps in striking a balance between the value of data, on the one hand, and GDPR and data privacy compliance on the other.

What GDPR and data privacy compliance risks does Dataistic help to mitigate?

The risks of slowing down technological progress, fines of up to 20 million Euros, 4% annual turnover and alike, damage to reputation, loss of clients and trust.

What impact do the services of Dataistic have on new technologies?

Crucial. Technologies like artificial intelligence (AI), big data, the Internet of Things (IoT), autonomous vehicles, gene engineering, and biotechnologies rely on the information. This information includes personal data and turns GDPR & data privacy compliance into a challenge.

Can Dataistic assist with global data privacy laws?

Yes. We provide assistance in relation to US California Consumers Privacy Act ('CCPA'), Brazil's General Data Protection Law ('LGPD'), China's Personal Information Protection Law (PIPL), India's Personal Data Protection Bill, and other data privacy laws across the globe.

What does the service of an external data protection officer consist of?

Continuous advising on and monitoring of GDPR and global data privacy compliance, training of staff, cooperation with supervisory authorities and individuals, and performance of other statutory tasks.

Which specific compliance processes can Dataistic help with?

- Data breach management and notifications;
- Management of data privacy requests from customers, employees, and other individuals;
- Data protection impact assessments and other assessments;
- Management of vendors and data disclosures;
- Management of cases before data protection authorities and courts.

Can Dataistic help me with data privacy compliance with global data privacy compliance?

Yes. We provide assistance in relation to laws to US California Consumers Privacy Act ('CCPA'), Brazil's General Data Protection Law ('LGPD'), upcoming India's Personal Data Protection Bill, and similar laws across the globe.

Does Dataistic provide the service of data protection representatives in the EU and other regions?

Yes.

Does Dataistic provide GDPR and data protection self-regulation services?

Yes. We assist with the preparation and supervision of data protection codes of conduct.
